
FORMPARK QUADRATO FORMPARK ROMBICO

Multifaceted and striking

BAUWERK®
Parquet

FORMPARK QUADRATO & FORMPARK ROMBICO

With the success of the classic
Formpark formats, Bauwerk Parquet developed
two additional products that reinterpret
traditional laying patterns:
Formpark Quadrato and Formpark Rombico.

Formpark Quadrato & Formpark Rombico

PLAYFUL ACCENTS

The two elegant formats create a fascinating play of light on the floor. Thanks to the numerous creative laying options, you can add even more personal expression to your own four walls with Formpark Quadrato and Formpark Rombico.

Herringbone: an unmistakable eye-catcher

The herringbone laying pattern is experiencing a big revival. Classic and elegant, it gives a room the ambiance of a city villa. In addition to herringbone, Formpark Quadrato and Formpark Rombico can be laid in many other patterns. This product is made with utmost precision, the latest machinery, with unique Bauwerk Parquet quality. The product's precise fit makes perfect laying possible.

Award for Formpark Quadrato and Formpark Rombico

Formpark has been and still is, a story of success. Both the latest formats, Formpark Quadrato and Formpark Rombico, have received awards for the originality of the ideas that these products are based on. The independent jury at Iconic Awards gave both the formats an 'Iconic Awards 2018: Innovative Architecture – Winner' prize.

FORMPARK QUADRATO

Herringbone and other
exciting laying patterns
thanks to 1:5 format.

COUNTLESS INSTALLATION OPTIONS

Thanks to the 1:5 dimension ratio of its planks, Formpark Quadrato can be adapted to many different floor designs. Therefore, in addition to classic herringbone, in which the planks lie at a right angle to each other, other geometric patterns are possible, like the cube or ladder patterns.

Precise fit

Floors intended for creative patterns require a very precise fit, and for this reason, every plank is made by our teams of skilled craftsmen in Switzerland.

Laying patterns according to your wishes

We have compiled and included a selection of some favourite laying patterns. Our colleagues in the Worlds of Parquet and our laying partners will support you in your planning.

FORMPARK QUADRATO

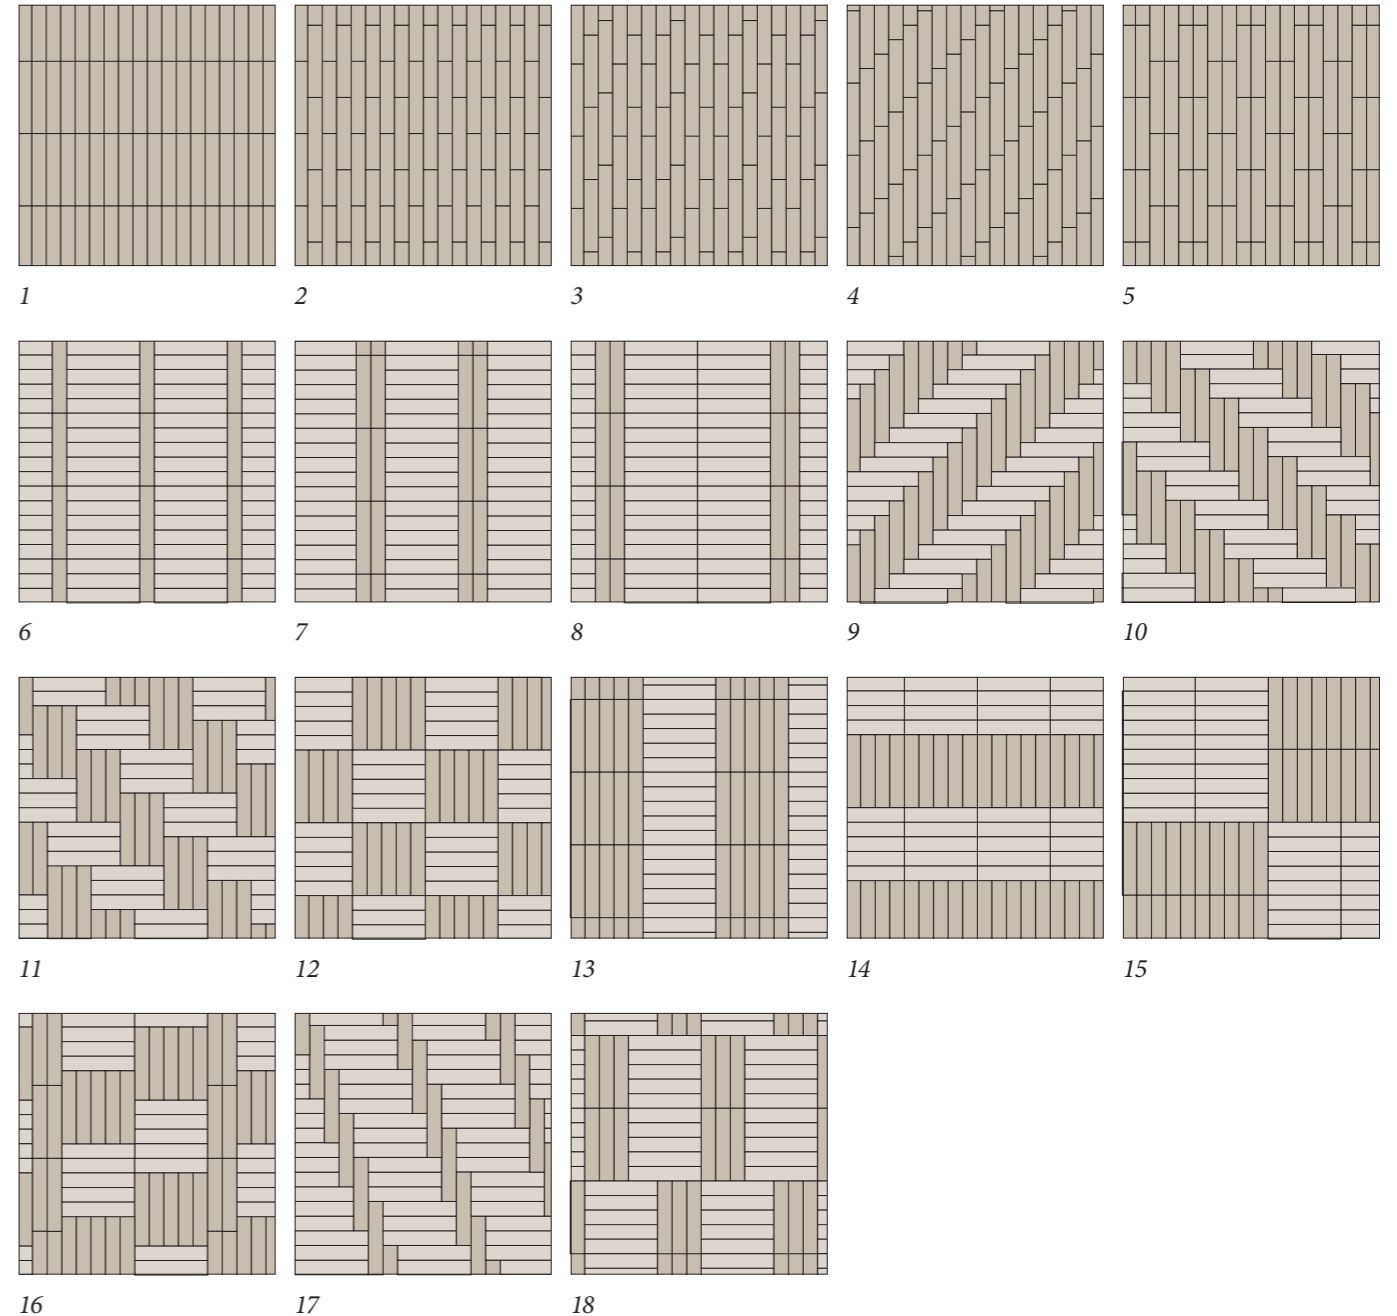

Format 650 × 130 mm
1:5 ratio

Information

- › Due to the incidence of light, horizontally installed planks appear brighter than vertical ones. This effect can be used specifically as a design element.
- › The format presents a clear, structured aesthetic, and depending on the arrangement, can give the room more depth.
- › Formpark Quadrato and Formpark Rombico cannot be combined with each other.

And which is your personal
Formpark Quadrato laying pattern?

Formpark Quadrato

COLOUR OVERVIEW

Formpark Quadrato is available in light and dark colours with a natural-oiled surface, as well as in the Oak Farina, Oak Crema and Oak Mandorla colours with the innovative B-Protect® surface treatment. The planks in this format come in a calm grading and do not have bevels, creating a smooth, flatter appearance to the floor.

FORMPARK ROMBICO

An exciting new interpretation
of classic laying patterns
thanks to the 45° angle of the planks.

FRENCH HERRINGBONE AND OTHER PATTERNS

Thanks to the 45° angle of its individual strips, Formpark Rombico is perfect for laying parquet in a French herringbone pattern.

In this pattern, the individual strips of parquet form a set of diagonal lines that give the room a new perspective.

A new interpretation of classic patterns

The large dimensions of the individual planks make it possible to reinterpret other laying patterns as well, whether you prefer clearer shapes or are looking for a dynamic zig-zag design.

Laying patterns according to your wishes

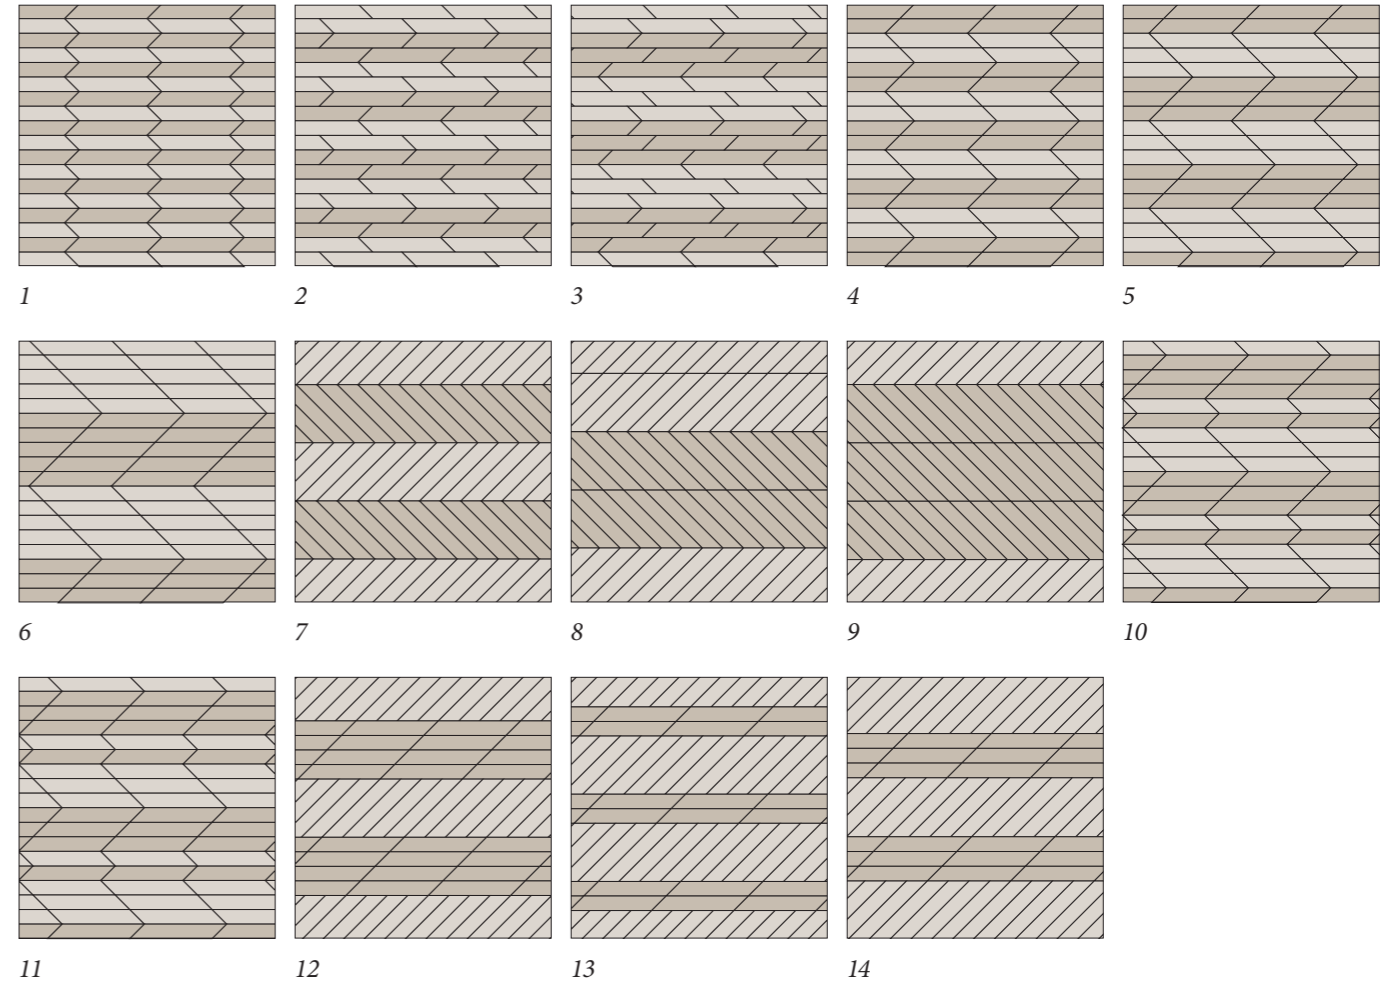

We have compiled and included a selection of some favourite laying patterns. Our colleagues in the Worlds of Parquet and our laying partners will support you in your planning.

FORMPARK ROMBICO

Format 735 × 130 mm

And which is your personal
Formpark Rombico laying pattern?

Information

- › Due to the incidence of light, horizontally installed planks appear brighter than vertical ones. This effect can be used specifically as a design element.
- › In interior design, architectural diagonal lines provide a touch of sophistication, and for Formpark Rombico, this is true for both classic and modern patterns.
- › Formpark Quadrato and Formpark Rombico cannot be combined with each other.

Formpark Rombico

COLOUR OVERVIEW

All Formpark Rombico colours are brushed and natural oiled. The brushed surface gives the floor even more depth and character, highlighting the interaction with light. The planks in this format come in a calm grading and do not have bevels, creating a smooth, flatter appearance to the floor.

In 1935, Ernst Göhner brought the idea of solid parquet to series production before founding Bauwerk Parkett in 1944. Since then, Bauwerk has been researching, developing and manufacturing innovative, aesthetic parquet solutions of the highest quality with great passion and Swiss precision. Original parquet floors from Bauwerk, one of the leading parquet manufacturers in Europe, offer the unique feel of a piece of real nature that provides tangible warmth and healthy living for a perfectly balanced atmosphere in any room. *bauwerk-parkett.com*
