# ACCESSORIES MADE OF PARQUET

A love for detail: Would you like your stairs and floors to feature the same parquet?

Bauwerk will be happy to assist you in customising your living space – from stairs to floor skirting to ventilation grids and special solutions.

Parquet is an uniquely warm and natural stage for every imaginable style, form of living or space we work in.

*Parquet stairs*

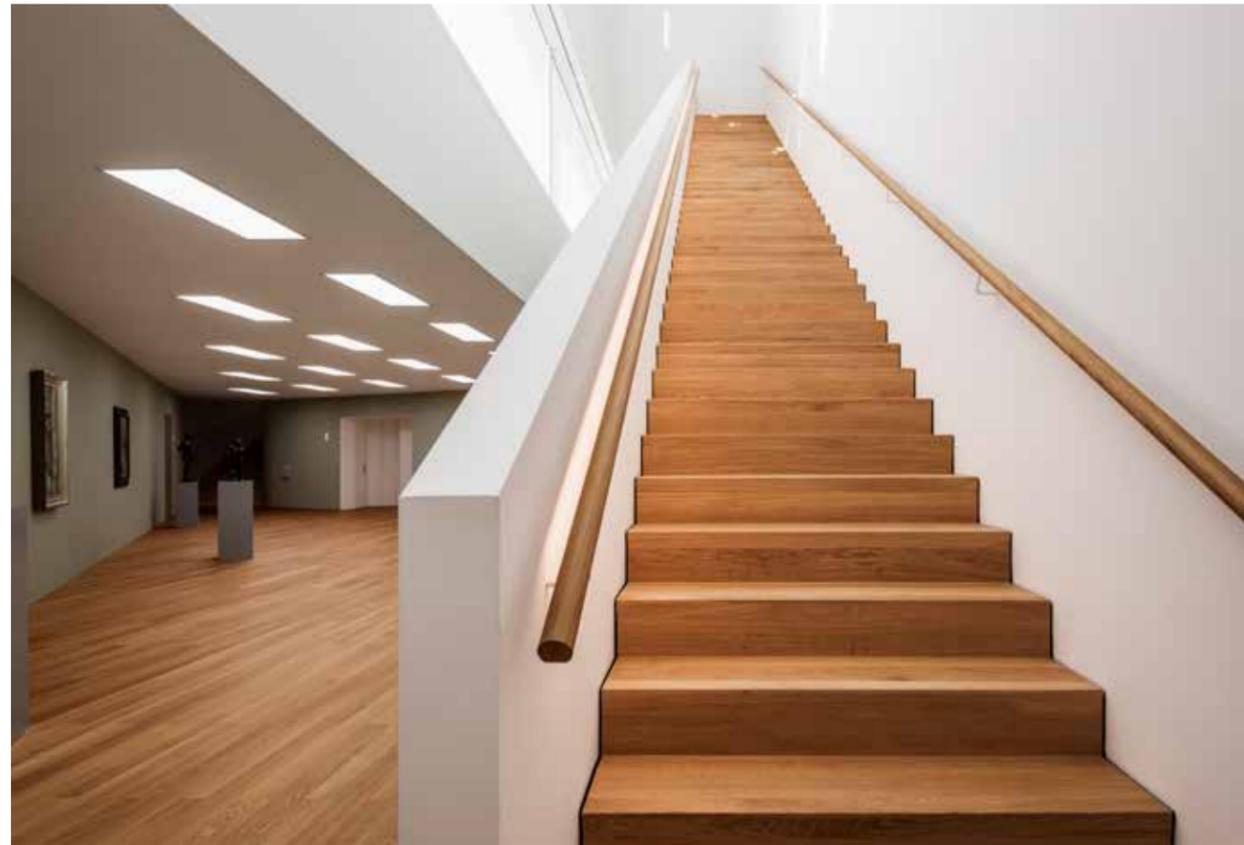

# TASTEFUL INTEGRATION

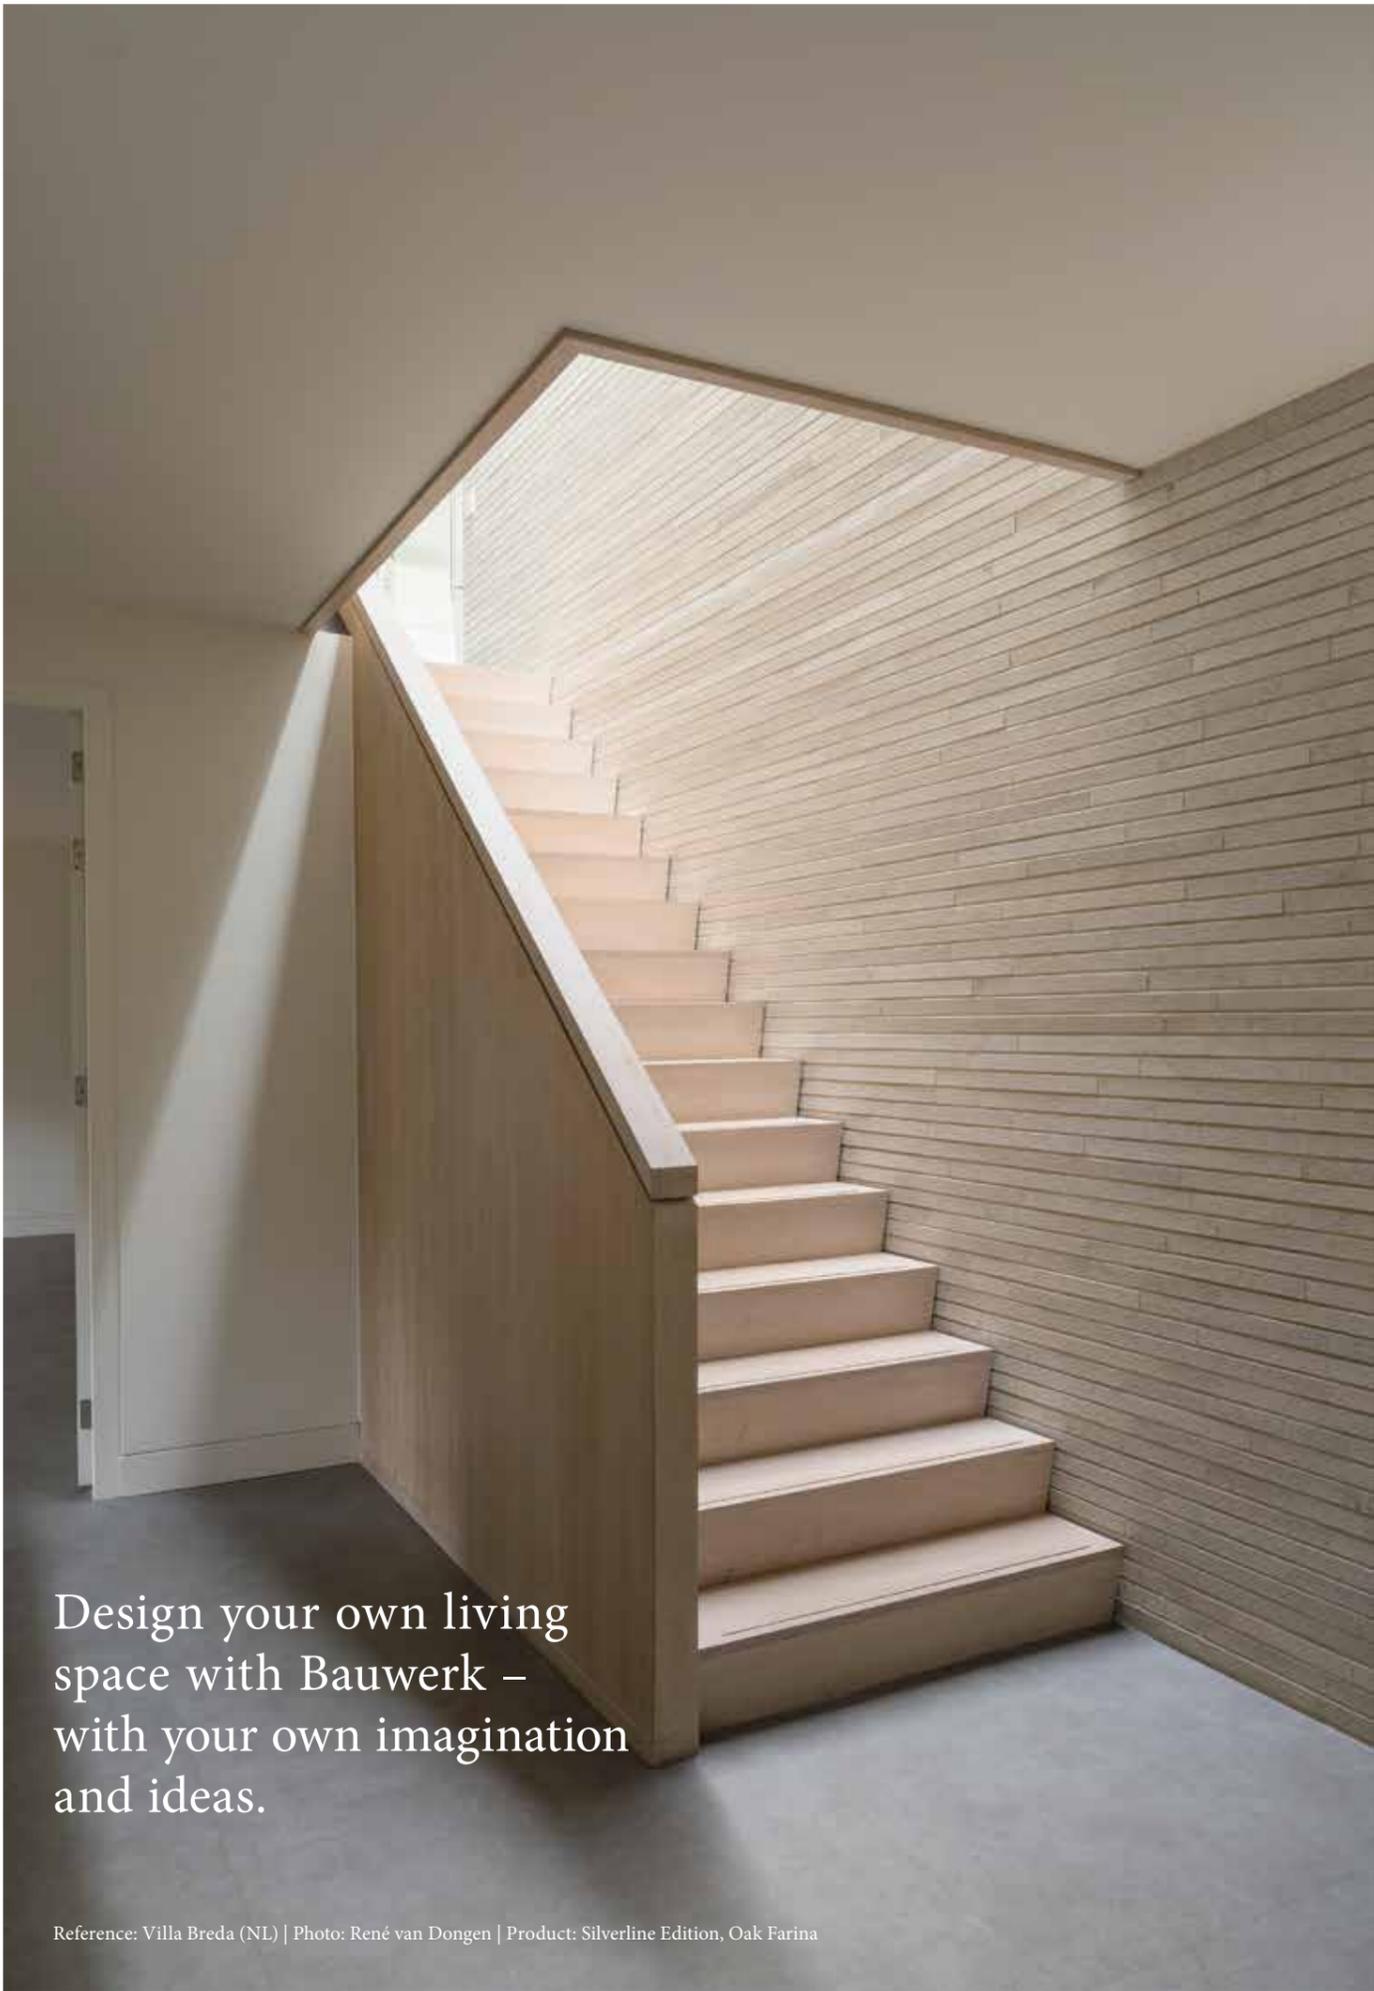

Stairs are more than a way of accessing upper floors: they are a design element that is rich in detail and has a great deal of influence on the ambiance of a living space. In addition to stair architecture and structure, cladding is also a decisive factor. Swiss-made stair solutions have a decisive advantage: parquet floor and stairs can have the same colour and surface treatment, as well as the same level of gloss.

Bauwerk offers versatile solutions for a harmonious overall impression – from the ground floor to the staircase and upper floor.

### Custom stairs

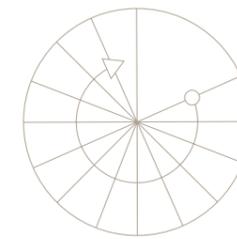

The main purpose of stairs are to manage height differences in a comfortable and safe manner. This implies a large number of stair layouts that can significantly influence architectural style: from straight to spiral stairs, in combination with solid wood or parquet stair treads. Custom solutions, perfectly adapted to your wishes, are the answer.

### Anti-slip strips

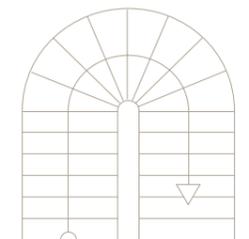

On request, Bauwerk manufactures stair treads with non-slip profiles. Non-slip profiles provide slip resistance and therefore safety, visually marking the edge of the steps at the same time. They can be made out of various materials and in different colours.

*Stair noses*

# INNOVATIVE FOLDING TECHNOLOGY

All stair solutions are hand-made at our facility in St. Margrethen, Switzerland. The globally unique production technology developed by Bauwerk makes it possible to fold the stair nose without damaging the surface. This creates major advantages:

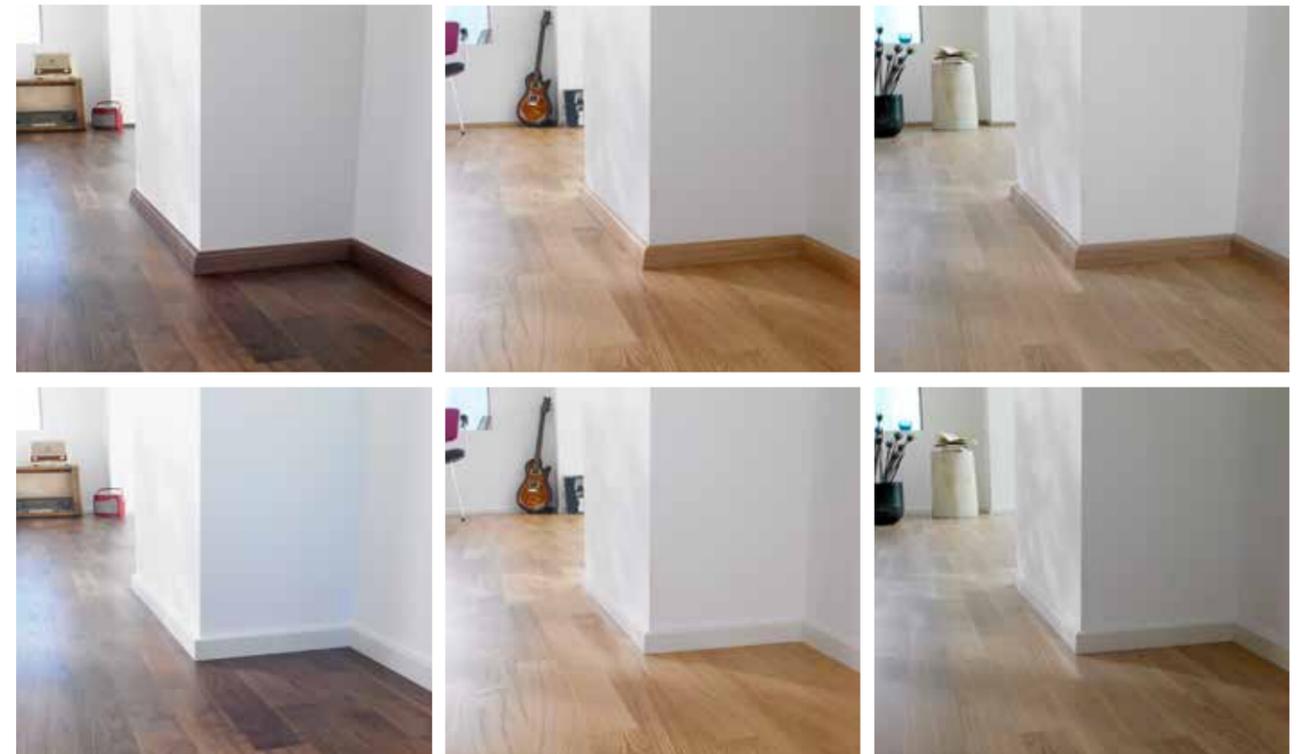

- › Consistency in colour, gloss level and surface treatment
- › No accumulation of dirt thanks to an edge guard
- › Seamless transition between the steps

Skirting boards

# PERFECT FINISHING

Add the perfect final touch to your interior design by using Bauwerk's extensive range of skirting to create neat transitions to walls and cover the joints between the floor and the walls. There are skirting for all types of woods, in various shapes and surfaces. They protect the walls and provide a discreet way to lay cables and wires.

Conscious designing means working out and executing all of the details so carefully that they support the desired spatial effect.

## Support in selecting the skirting boards

There are multiple factors involved in selecting skirting: colour, format, personal taste and building requirements are the most important ones.

Visit one of Bauwerk's Parquet Worlds, or a Bauwerk partner in your area, and let them offer you advice on how to choose the right skirting boards:

Transitions

# SEAMLESS INCORPORATION

Very low thickness and full-surface bonding, which almost completely prevents parquet from shrinking or swelling, make it possible to create gorgeous interior details with Bauwerk parquet. With our parquet it is possible to work seamlessly to freestanding columns, posts and door frames. Transitions between different living areas, for example between parquet and carpet or tile floor, can also be made smooth and seamless. This ensures a perfect overall appearance, without unsightly transitions.

Naturally elegant transitions between different flooring areas and rooms underscore the overall interior architectural effect.

Wood is changeable and flexible, which makes it the perfect material to design your living space consciously with your individual creations.

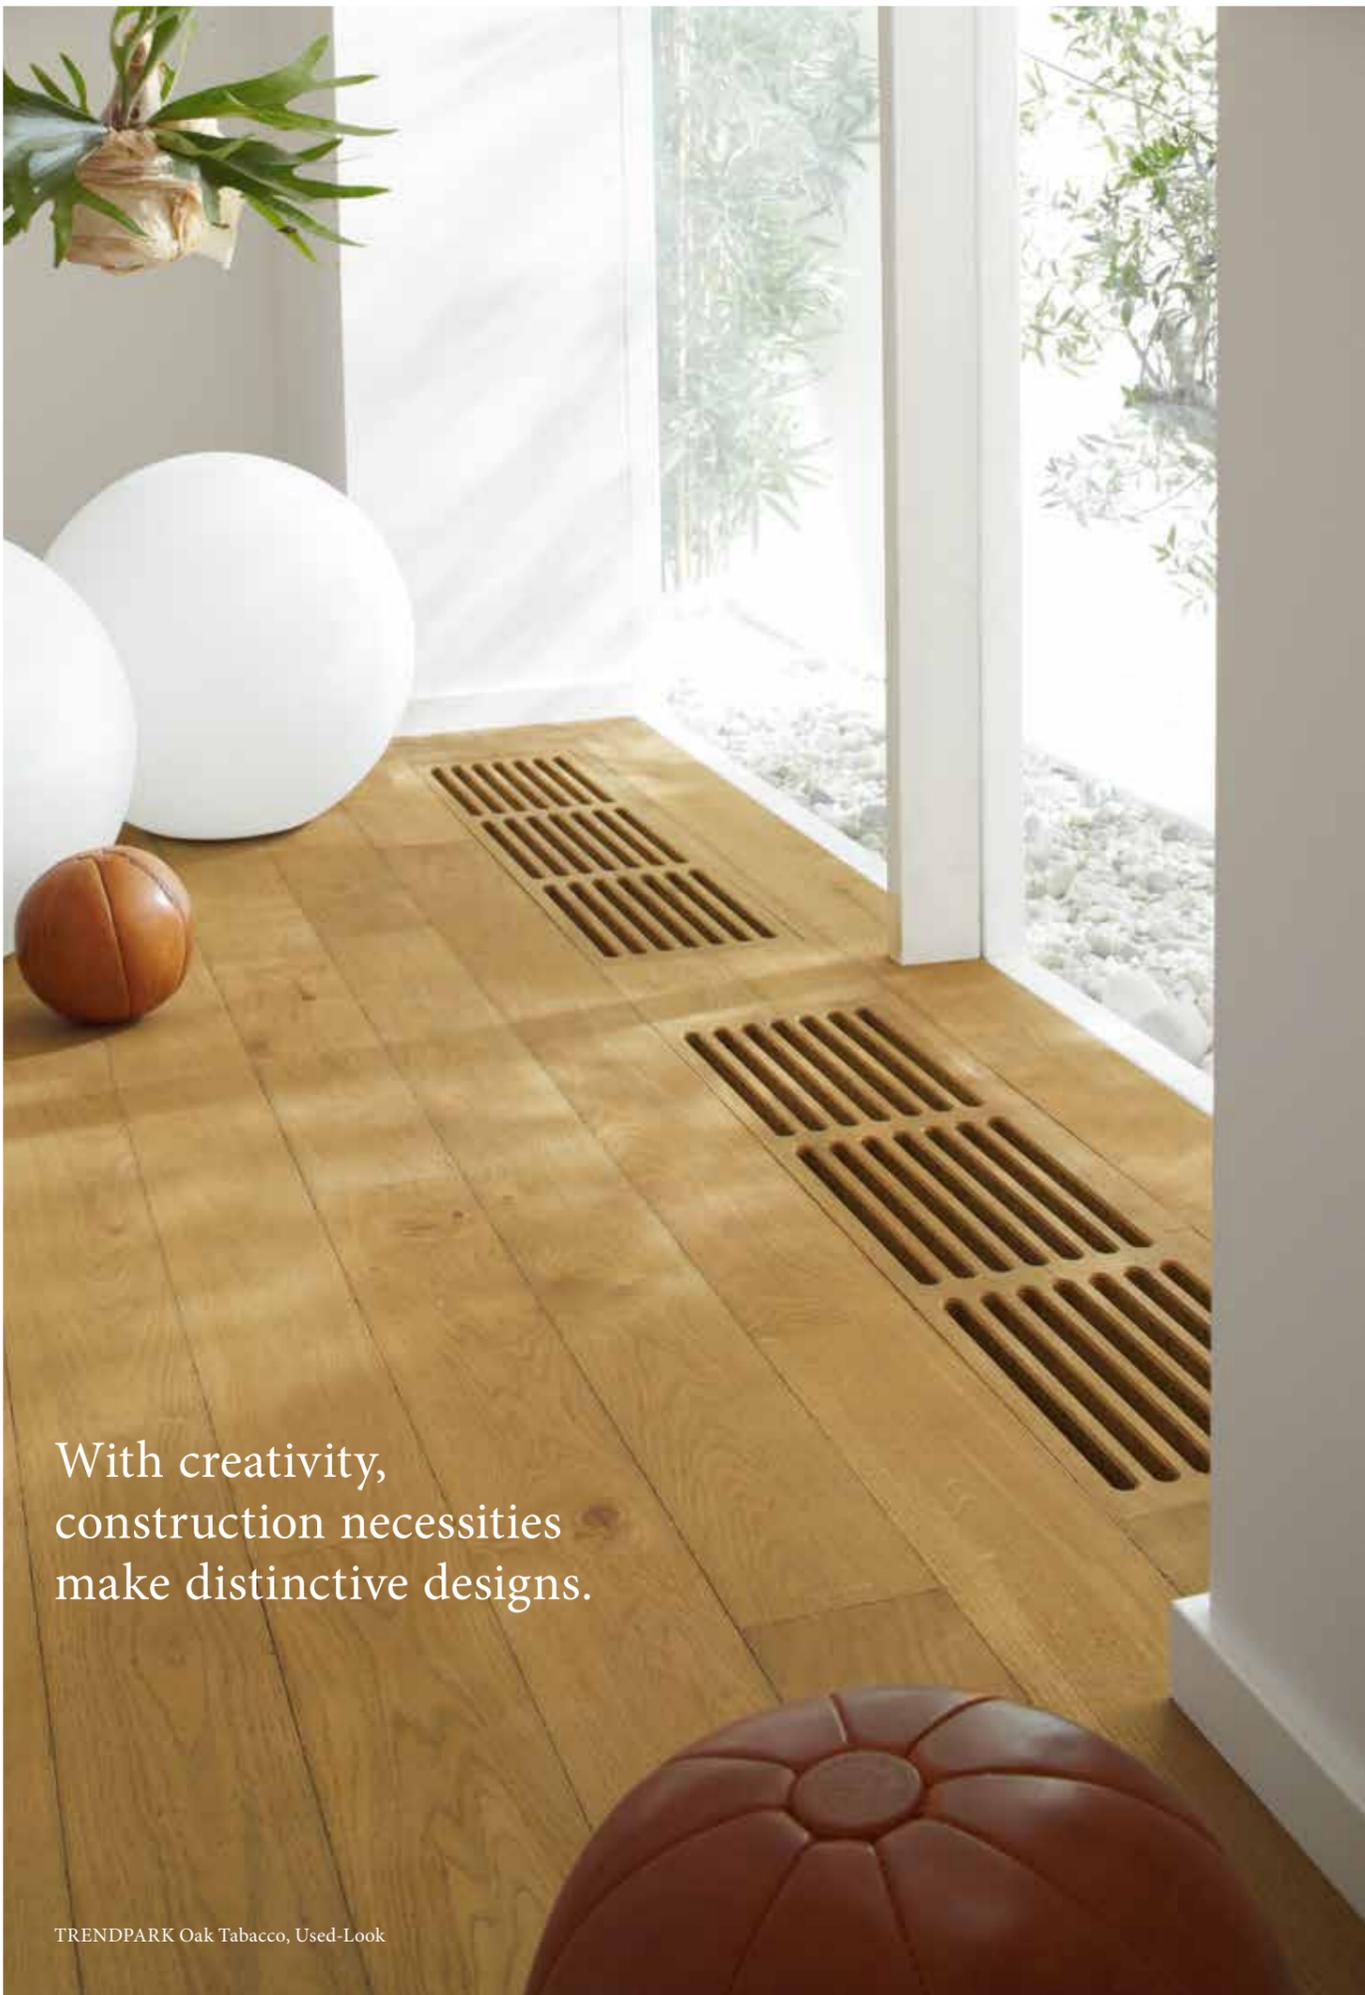

*Special parquet solutions*

# CREATIVE DESIGN

Modern requirements in design and architecture demand the perfect solution for every space and design situation. The classic parquet floor has also evolved: the times of 'off-the-shelf floors' are over. Be it ventilation grids, landings, walls or ceilings: with their various elegant solutions and well-designed accessories, Bauwerk products can be used for practically any idea.

make distinctive designs.

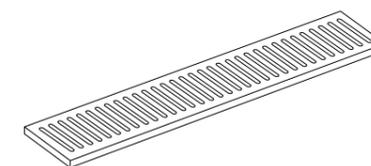

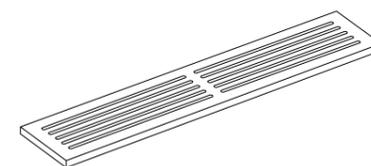

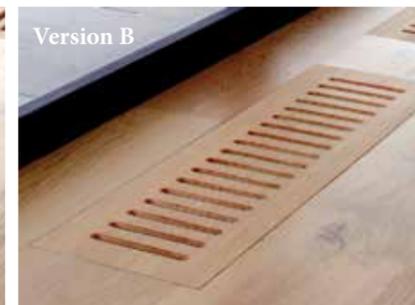

TRENDPARK Oak Tabacco, Used-Look

*Ventilation grid out of parquet*

# DISCREET FITTING

Ventilation grids are often a necessity in construction. If made out of a different material, they immediately stand out in appearance and clash with the rest of the floor. Made of the same wood as the parquet floor, they can, however, blend smoothly with their environment. On request, Bauwerk can also make ventilation grids to match your Bauwerk parquet. Precision work can make your personal choice of format, type of wood and surface treatment a reality. The ventilation grids can thus be elegantly and discreetly inserted into the look of the room.

*Warranty package and Bauwerk ID*

## A VISIBLE SIGN OF QUALITY

Your Bauwerk floor is one of a kind, a genuine part of your living environment – manufactured by Bauwerk in accordance with top quality standards, carefully selected by you and professionally installed by a specialist.

### **Bauwerk ID as a seal of quality**

Since we consider the longevity of our floors to be a central quality feature, we have now created a special Bauwerk ID which will act both as a lasting sign of our quality approach and as a seal of quality that allows us to assist you with all floor maintenance activities. This process is sealed with the individually numbered Bauwerk ID. Once you have registered your product, you can rest assured that you have taken all necessary steps to ensure optimum care and maintenance of your floor.

### **Elegant design and quality element**

The seal is available in different dimensions to match the plank width of the floor in question. The elegant, minimalist design suits all types of wood, different grains, and different shades of colour, from light to dark. Even after the extended warranty period of 10 years expires, Bauwerk ID quickly makes it clear that the parquet is a high-quality and healthy-living product that can last a lifetime.

Please contact your floor installer. He will be happy to order you the matching Bauwerk ID for your parquet floor. You can also buy the Bauwerk Warranty Package in one of our showrooms.

Concentrated expert knowledge

# EVERYTHING FROM ONE SOURCE

Style-conscious living is a mark of individuality and an expression of personal lifestyle. Flooring is a central, defining element that has a decisive impact on the appearance of a living space. Bauwerk meets these specific requirements and individual needs with its parquet floors, helping you design your living space.

## Stairs

Flooring and stairs form a harmonious whole with Bauwerk – and staircases become a creative element in how living space is arranged.

## Skirting boards

With our comprehensive selection of skirting in a range of colours and forms, Bauwerk guarantees a perfect, tailored finish.

## Ventilation grids

Bauwerk can manufacture matching ventilation grids for you Bauwerk parquet that blends smoothly into the look of your flooring design.

## Transitions

With our glued parquet one can work seamlessly on transitions, e.g., to tile floor in the kitchen. This means you can do without unsightly moulding strips and retain a perfect overall impression.

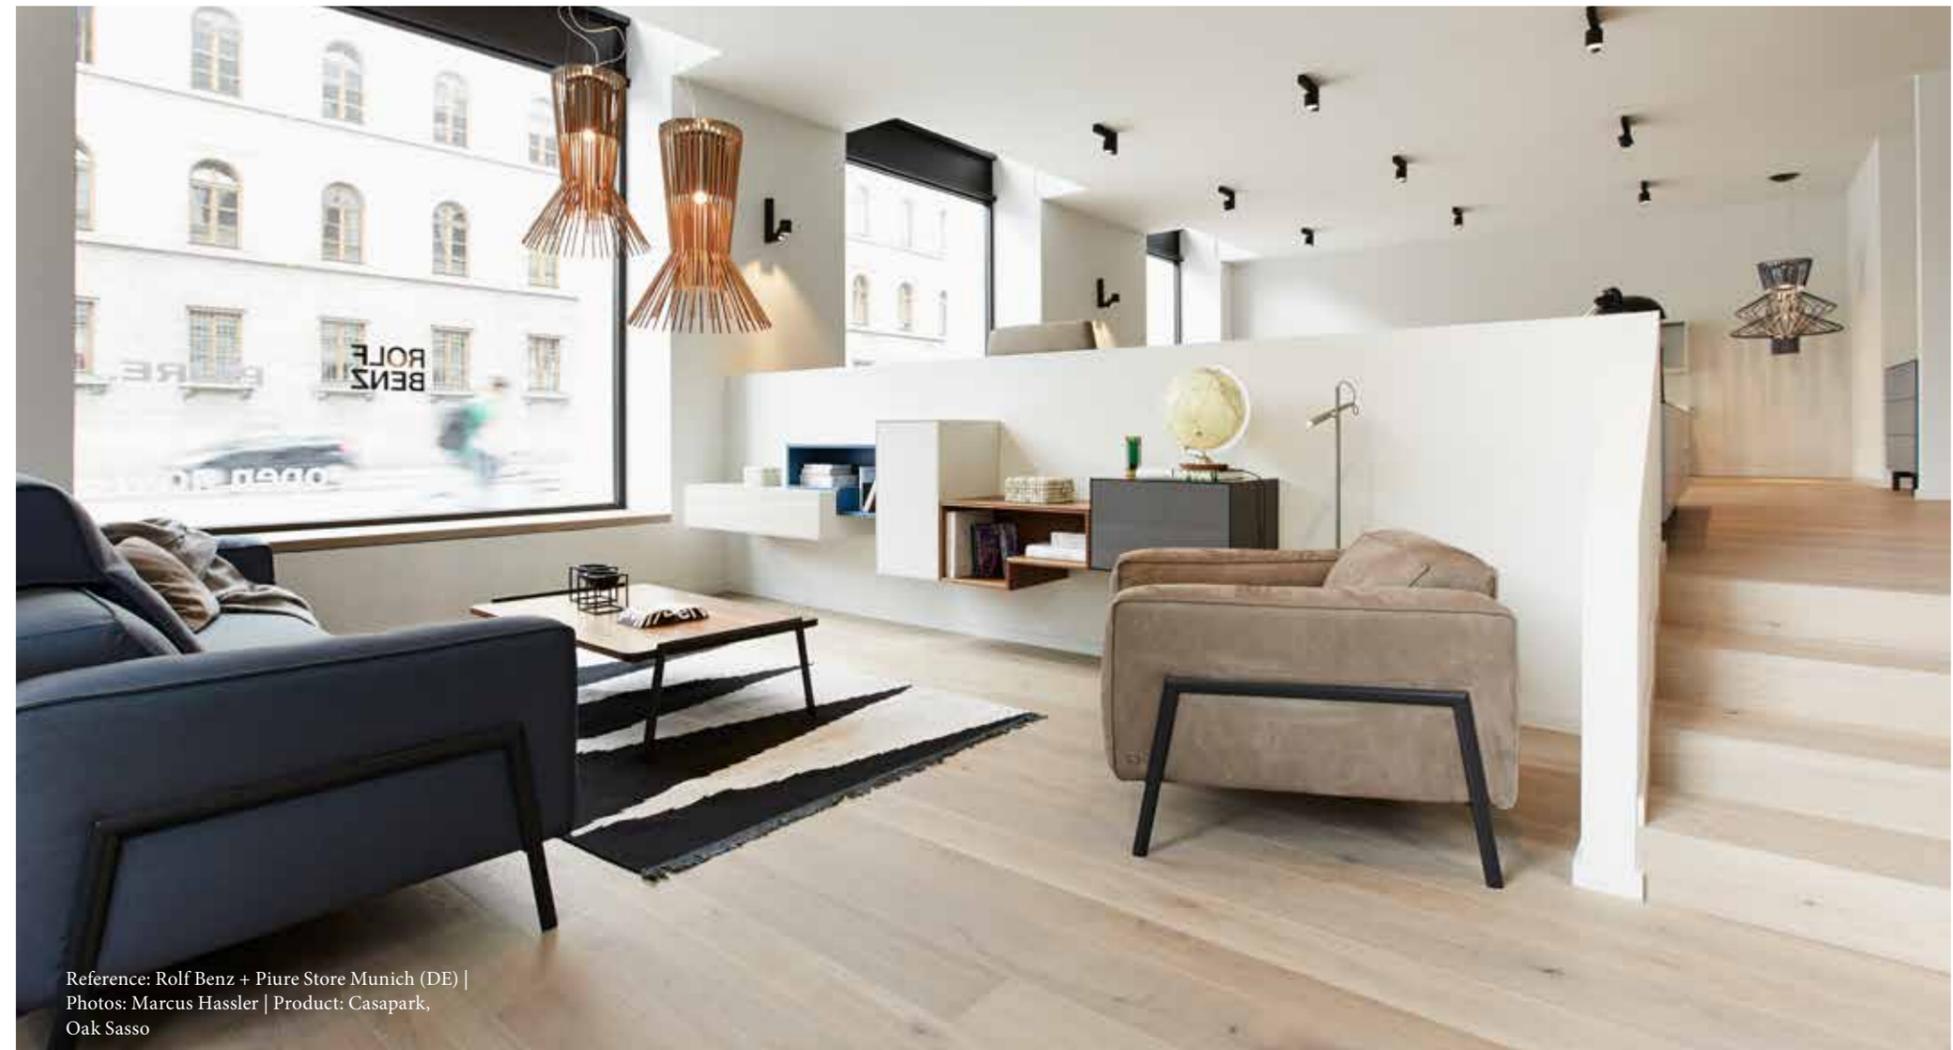

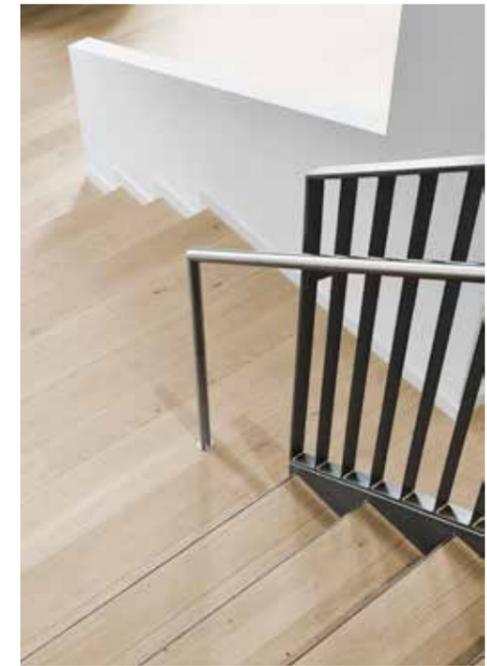

## Special solutions

Bauwerk and our laying partners employ professionals for specialised solutions, such as parquet ventilation grids, furniture and wall panelling.

## Warranty package and Bauwerk ID

Your “All-round carefree package” guaranteeing healthy living, the right cleaning and care products, plus a 10-year product warranty.

Thanks to the Bauwerk stair solution, seamless transitions were set up at the Rolf Benz + Piure Store in Munich.

---

In 1935, Ernst Göhner brought the idea of solid parquet to series production before founding Bauwerk Parkett AG in 1944. Since then, Bauwerk has been researching, developing and manufacturing innovative, aesthetic parquet solutions of the highest quality with great passion and Swiss precision. Original parquet floors from Bauwerk, one of the leading parquet manufacturers in Europe, offer the unique feel of a piece of real nature that provides tangible warmth and healthy living for a perfectly balanced atmosphere in any room. *bauwerk-parkett.com*
