

# EXOTIC WOOD

*Product Profile*

**BAUWERK®**  
*Parquet*

# THE DETAILS

*Exotic woods from sustainably managed forests*

Exotic Woods fascinate through their exotic colours and interesting structures. At the same time, they impress through their high quality, hardness and longevity. The noble appearance of exotic woods always invokes a touch of wanderlust and the exotic. Bauwerk is, however, also well aware of the responsibility that exotic wood entails. All the exotic woods used by Bauwerk are therefore 100% FSC® certified. FSC stands for Forest Stewardship Council®, an independent, non-government, non-profit organisation that advocates responsible and socially-beneficial forest management, and guarantees this with its label. Through this sustainable and responsible use of natural materials, Bauwerk wants to ensure this vital source of income for the local population.

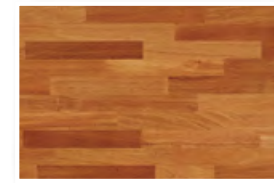

*Exotic woods - Exotic woods from sustainably managed forests*

# PRODUCT OVERVIEW

## WOOD TYPE, COLOUR, STRUCTURE & SURFACE TREATMENT

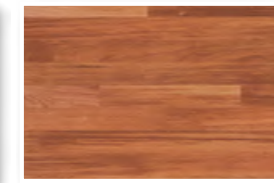

Bauwerk has two different types of exotic wood in its product range, with each individual type standing out through their intense, natural colours and their unique structures. All exotic woods are 100% FSC® certified.

Megapark

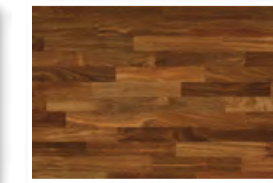

Doussie (FSC® 100%)  
Origin: West Africa

Megapark

Doussie Crema (FSC® 100%)  
Origin: West Africa

Megapark & Unopark

Sucupira (FSC® 100%)  
Origin: South America

## DIMENSIONS

Megapark: 1250 x 100 x 11 mm

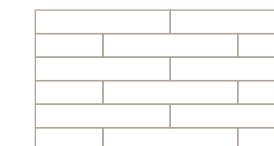

Unopark: 470 x 70 x 11 mm

## TYPES OF INSTALLATION

In addition to the classic Shipdeck and English installation methods, the combination of Unopark and Megapark make some very exciting designs possible. Unopark can also be laid in a herringbone pattern.

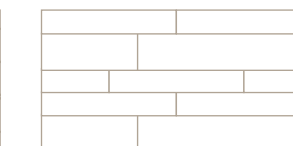

Shipdeck

English

Herringbone (Unopark)

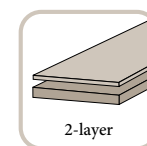

Combination (Unopark & Megapark)

## YOUR BENEFITS

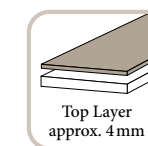

Exotic wood has a unique, natural colour, and stands out through its hardness and longevity. All the exotic woods used by Bauwerk are 100% FSC® certified. An environmentally friendly and socially beneficial management of the forests is thereby guaranteed.

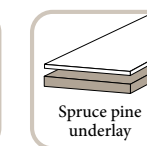

## GENERAL PRODUCT INFORMATION

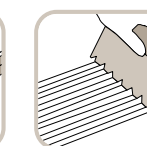

Type of parquet

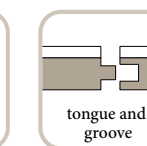

Top layer thickness

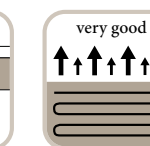

Underlay

Full-area bonding

Tongue and groove connection

Suitable for use with floor heating
