

STUDIOPARK

Product Profile

BAUWERK®
Parquet

THE DETAILS

The one-strip plank that suits every room.

The nature oiled one-strip planks are of a size that fits perfectly in big and small rooms alike. Featuring a HDF base and a bevelled longitudinal edge, the planks have the following dimensions: 1,700 x 150 x 9.5 mm. This emphasis on length gives every room an impression of generous dimensions. The nature oiled, deep brushed surface catches the play of light and brings out the wood's natural beauty. Studiopark one-strip planks are manufactured in proven Bauwerk quality at the St. Margrethen factory. An excellent addition to Bauwerk's successful HDF product family, they represent the missing link between the Trendpark and Villapark formats.

Studiopark – The one-strip plank that suits every room.

PRODUCT OVERVIEW

WOOD TYPE, COLOUR, STRUCTURE & SURFACE TREATMENT

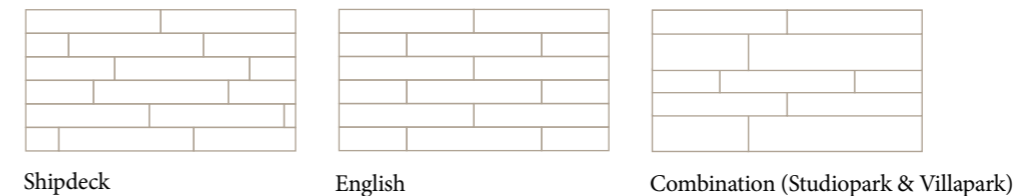

The wood type oak is available in eight different color shades, in natural oiled- and/or B-Protect®-surface

DIMENSIONS

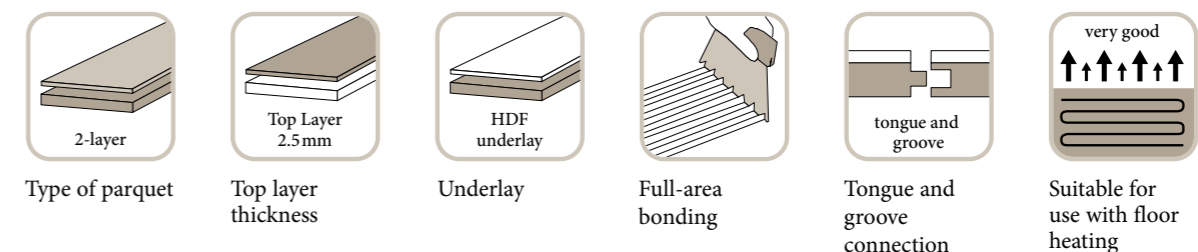

TYPES OF INSTALLATION

YOUR BENEFITS

- › Swift and easy installation thanks to precision manufacturing
- › Low installation height of 9.5 mm creates optimum conditions for renovations, e.g. at doors and transitions
- › Compliance with all construction law standards: CE, DIBt, stress class, fire class Cfl s1, anti-slip class R10
- › Sustainable parquet for healthy living: tested and guaranteed by various labels
- › Energy efficiency: Studiopark is based on an optimum construction format with minimum heat conductivity resistance which is ideally suited for installation on floor heating systems.
- › Simple alignment with fixed components and optimum architectural design options: matching skirting boards, steps and ventilation grids are available.
