

CLEVERPARK 900

BAUWERK
Parkett

CLEVER MEETS CREATIVE

The long planks impress with the large variety of classic and creative patterns they can form to design a very personal room experience! The 900 mm Cleverpark plank is the longest format in Bauwerk Parkett's product range that can be laid in a herringbone pattern. With its clever 9:1 dimension ratio, it can also be used for many other classic and modern laying patterns.

Colours, surfaces and dimensions

The dimensions of this 2-layer parquet, at 900 × 100 mm, offer many different design options, making it perfect for smaller as well as larger rooms. As the planks are manufactured without bevels, their individual elements blend intentionally with the background: the floor looks seamless and calm, presenting itself as a unified whole. Moreover, Cleverpark 900 is based on HDF panel technology with a resource-saving 2.5 mm top layer, manufactured at the company's headquarters in Switzerland.

Oak Farina
Surface: natural oiled,

Laying patterns

Cleverpark 900 can create very different visual effects and produce any kind of aesthetic in a room, from a shipdeck classic look to a more creative pattern. The long plank wields the full potential of the traditional art of parquet laying and brings creative variety to the floor.

We have compiled a selection of some favourite laying patterns for you. The experts at our Worlds of Parquet and our installation partners will support you in your planning. Which Cleverpark 900 laying pattern is your favourite?

Bauwerk Parkett – Built for a lifetime

What began in 1935 with the invention of solid parquet by Swiss pioneer Ernst Göhner, sets new standards for ambitious design and healthy living today. Just like every tree and every piece of wood, each of our responsibly manufactured planks is sustainable and unique. A fusion of Swiss engineering and authentic nature results in extraordinary living experiences: today, and for future generations. bauwerk-parkett.com
