# THE 1-STRIP PLANK THAT FITS EVERY ROOM

Studiopark offers top flexibility with trendy colour options.  
The budget-friendly parquet format is a versatile all-rounder from our 1-strip-plank  
portfolio and provides excellent comfort, even in smaller areas.

## Colours, surfaces and dimensions

The 1700 × 150 mm Studiopark 1-strip plank is also ideal for installation in smaller rooms. The bevel on the long side of its planks discreetly accentuates their dimensions, creating an effect of spaciousness and giving the room 'that special something'.

Studiopark is built on HDF technology with a resource-efficient 2.5 mm top layer and is manufactured at our Swiss headquarters. In addition, thanks to its low installation height, the Studiopark range is ideal for renovations and ensures optimum energy efficiency with underfloor heating systems.

### **Bauwerk Parkett – Built for a lifetime**

What began in 1935 with the invention of solid parquet by Swiss pioneer Ernst Göhner, sets new standards for ambitious design and healthy living today. Just like every tree and every piece of wood, each of our responsibly manufactured planks is sustainable and unique. A fusion of Swiss engineering and authentic nature results in extraordinary living experiences: today, and for future generations. [bauwerk-parkett.com](http://bauwerk-parkett.com)
