

CASAPARK

A modern interior scene featuring a dark wooden floor, a textured wall, and a black chair. The floor is made of wide-plank wood with a natural, slightly distressed finish. A large, dark, textured panel leans against the wall. A black, minimalist chair with a curved back and a single screw detail is positioned in the corner. The lighting is warm and directional, creating strong shadows and highlighting the textures of the wood and wall.

Colours, surfaces and dimensions

The Casapark range impresses with its distinctive variety, different widths, exciting Handcrafted surfaces and a selection of popular colours. The 3-layer oak planks offer a wide range of design options in the well-known Bauwerk Parkett quality – and at an attractive price.

The Casapark 1-strip planks, in a generous length of 2200 mm, are available in three different widths: 138, 181 and 209 mm. The lengthwise bevels further emphasise these impressive dimensions. Depending on the product, the planks can be installed all in the same width or in a combination of different widths.

Handcrafted

Casapark Handcrafted stands out for its natural look and perfect imperfections: Traditional craftsmanship and a modern design aesthetic bring even more life into this exclusive floor. The manually refined surface produces an extraordinary interplay of colour, structure and integrated detail, preserving the natural quality of the wood. Knots and cracks are carefully highlighted through elaborate manual processes. Traditional brushing and planing techniques highlight the wood's structure and refined surface. Thanks to its charming irregularities, every plank is unique, providing elegant accents and a memorable tactile experience.

Innovative Click system

Thanks to practical 5G technology, the flooring is quick and easy to install – without any glue and perfect for renovation projects.

Bauwerk Parkett – Built for a lifetime

What began in 1935 with the invention of solid parquet by Swiss pioneer Ernst Göhner, sets new standards for ambitious design and healthy living today. Just like every tree and every piece of wood, each of our responsibly manufactured planks is sustainable and unique. A fusion of Swiss engineering and authentic nature results in extraordinary living experiences: today, and for future generations. bauwerk-parkett.com
